

Crock A Doodle Pottery Painting Project Sheet

Feature Project:

Santa Belt Goblets

Pottery piece: Wine Goblet

Colours: Rockin' Red, Black Lab, What a Yolk, Polar Bear

How to Steps:

1. Paint the inside and ½ inch of the outside top of the goblet using Polar Bear and a medium sized mop brush. Paint 2-3 coats and be sure to allow the paint to dry in between.
2. Use a medium brush to paint 3 coats of Rockin' Red on the rest of the goblet.
3. Once the red is dry, with a detail brush and Black Lab, paint the belt halfway down the red portion and all the way around the goblet. 2 coats will do.
4. Paint the buckle using a liner brush and 3 coats of What a Yolk.
5. Add your name and the year using a liner brush to the bottom of the goblets.

Optional Details:

If you have masking tape, tape off the belt section of the goblet while painting with Rockin' Red. Once dry, remove the tape and paint it in using Black Lab.
